MARCHIATURA

Oltre all'applicazione di etichette adesive o IML per localizzazione in radiofrequenza RFID ed identificazione con barcode, è possibile personalizzare le cassette con il Vostro logo aziendale tramite due diversi sistemi, per quantità e spedizione entro 60 gg dall'approvazione dei disegni:

- Marchiatura a trasferimento termico
- Marchiatura a caldo ottenuta tramite caratteri mobili oppure con cliché fedele al logo aziendale.

Colori disponibili:

MINIMO 100 PEZZI

IML CON BARCODE - QR CODE - RFID

Il processo IML (In Mold Labeling) integra la personalizzazione e lo stampaggio del contenitore in un'unica fase. Un'etichetta in polipropilene, prestampata, viene inserita nello stampo e si fonde con il materiale plastico, diventando parte integrante della cassetta. L'etichetta può riportare barcode, QR code e il logo del cliente a colori. Su richiesta, è possibile fornire il file con la tara di ogni singola cassetta.

Essendo incorporata nel contenitore, l'etichetta garantisce un'elevata resistenza ai ripetuti lavaggi.

MINIMO 1.500 PEZZI
